## INTERNATIONAL ARCHAEOLOGY DAY - OCTOBER 18, 2014

Join the **Central Arizona Society of the AIA** and the **Pueblo Grande Museum** for a fun, unique, educational, and hands-on archaeology experience that's great for all ages: **MUDSLINGING!**

Our version of Mudslinging has nothing to do with politics; instead, it is a stabilization technique for earthen structures and has been employed for decades to shore up and repair the ancient Hohokam platform mound at Pueblo Grande Museum and Archaeological Park in Phoenix. It's very important work at this time of year, as the mound suffers from erosion during the monsoon rains!

Calling all volunteers - come get your hands dirty and help preserve the site! Master Mudslinger Jim Britton will be on hand to explain the history of preservation of the mound, discuss the ingredients and process for making and applying the mud, and direct volunteer efforts. You can also visit the museum and learn about the Hohokam if you don't want to get muddy. For more information or to sign up for the Mudslinging, please RSVP by email to Mike Zajac at [michel.j.zajac@gmail.com](mailto:michel.j.zajac@gmail.com).

## CHAPTER NEWS

### Agave House Chapter

July: Our July speaker, Bob Montgomery, better known as Ranger Bob, has more than 40 years with the Forest Service at the Black Mesa Ranger District on the Apache-Sitgreaves National Forest. From Memorial Day weekend and each Friday and Saturday night until Labor Day, Ranger Bob shows movies at Canyon Point and gives talks about the forest, the animals and the history of the area. In his off-season he also teaches a 10-week outdoor education class in the Phoenix area covering all aspects of prehistoric American Indian life, southwestern art appreciation, hands on pottery making, animal recognition, and sign language, creating an environment to learn respect for all cultures. Thank you Ranger Bob for your outstanding devotion, and exciting talks. You are always welcome at our meetings.

August: Joe Martin, our own Archaeologist on the Black Mesa Ranger District, gave our group a talk to delight the senses by a PowerPoint presentation of 25 of his favorite Western artists. Afterwards I looked up all of the artists on the internet and found several had websites; my favorite is [www.ernestberkeart.com](http://www.ernestberkeart.com). The website has a marvelously developed slide show of the artist's works along with music provided by R. Carlos Nakai's album "Canyon Trilogy" courtesy of Canyon Records. All of the artists have stunning photos of their works on the internet which you can access by using Google or Yahoo. Just type in the name of the artist and choose the link for images and for a further delight, pop in a CD by R. Carlos Nakai, Douglas Spotted Eagle, or John Huling or other Native American artist while you are browsing. You'll be glad you did!!

Here is a list of artists that were covered:

1. Ernest Berke (1921-2010)

### Agua Fria Chapter

September: Our September Speaker was Andrew Salywon, PhD, from the Desert Botanical Garden. He spoke at length about the different domesticated Agave varieties found throughout Arizona. The plant was an important part of prehistoric life used for food, medicinal and textile needs.

October: Next month our own Walter "Dutch" Duering will talk about the insights gained from the Calderwood Ceramics Lab Work. Most notable is the discovery of a sophisticated stone tool used to modify sherds for other uses. It will be an extremely informative talk.

We start our hiking season with a trip to Black Mesa. The hike will be led by Nigel Reynolds, author and tour guide who will take us to the "walls" on Black Mesa. We leave from Sunset Point Rest area at 8 am on Oct. 18th. We are limited to 25 people.

This year the chapter can look forward to the October State Meeting, a "dig" in Peoria and another delightful class taught by Maurice Shoger.

--Paulette Gehlker

### Desert Foothills Chapter

September: We began the 2014-2015 season with Wayne Ranney, an Arizona Humanities speaker, who presented a talk on *The Footsteps of Martha Summerhayes*. Martha followed her husband, Lt. John Summerhayes, to various Army posts in the Arizona Territory beginning in 1874. The historic presentation was very interesting. Surprisingly, the presentation also reflects the rapid transportation developments in the Arizona territory within a decade from marginal (at best) to more modern standards (not counting air travel). Also, Wayne had extensive interface with the family descendants to add depth to the presentation.

October: The Sears Point Archaeological District is an extensive complex site across terraces south of the Gila River and west of present day Gila Bend with over 2000 panels of petroglyphs. There are thousands of petroglyph elements and archaeological elements including geoglyphs, rock piles, rings, alignments, cleared areas, trails, and historic features from the 1800s as well as temporary habitations. Sears Point was most likely a major prehistoric gathering location for collection of food resources and regional ceremonies. Prehistoric cultures represented are probably Desert Archaic, Patayan, and Hohokam, with a strong possibility of a Paleo Indian presence. Evelyn Billo is CEO and founder (1997) of Rupestrian CyberServices which provides technical services for rock art site managers and others. She has studied Rock Art for over 30 years. Robert Mark earned his PhD in Geology from Stanford in 1972. He joined Rupestrian CyberServices in 1998 and is the Chief Scientist. Their presentation on the Sears Point complex should be outstanding after a 4-year project and the resulting final report and analysis on file with the Yuma Field Office of the Bureau of Land Management.

Special-1: This year's Holiday Party will be a potluck on Wednesday, Dec. 10<sup>th</sup>, at 6 pm in the community building (Maitland Hall) at the Good Shepherd of the Hills Episcopal Church, Cave Creek. Early reservations are strongly suggested due to limited room and possible seating configurations, no walk-ins can be accommodated this year. Please respond to Kathy Queen, 5311 E. Evans Dr., Scottsdale, AZ 85254 by Nov. 29<sup>th</sup>. Remit your non-refundable check (\$5.00 per person) to assist with the cost of your entrée, non-alcoholic beverage, rolls, condiments, and place settings. Reservations can also be completed at the Sept. 10<sup>th</sup>, Oct. 8<sup>th</sup>, and Nov. 12<sup>th</sup> meetings. Last names beginning with A through E are asked to contribute salads, F through M are responsible for side dishes, and N through Z bring deserts. BUCKLE UP and celebrate another successful year, share experiences, and review 2014. Joan Young volunteered to be our coordinator again this year and we look forward to her many surprises, questions 623.551.1085.

**Little Colorado River Chapter News**

Our September Field Trip was Saturday, Sept. 6, 2014, to the Rock Art Ranch, a private ranch outside of Holbrook. Archeologists claim there are over 3,000 petroglyphs on the canyon walls. The ranch has the last remaining bunkhouse of the Hashknife Cattle Company, one of the largest ranching operations in Arizona in the 19th Century. Native Americans once built and lived in an old rock house and corral located on the Ranch. This is where the U. S. Calvary camped just before the last battle with the Apaches at Apache Butte.

It was a bit on the warm side, but the ranch was outstanding, a real western ranch in the middle of an area that one would picture as the old west, because that is exactly what we saw—red dirt and big vistas, ranch house, farming equipment and cattle. We saw buffalo, old style irons and wash boards, old-time stoves, an early washing machine, saddles, covered wagons and so much more; Native American pottery from the early 1400's; hundreds of projectile points. Many items were preserved behind glass, well-loved and taken care of. The re-mudded sweat lodge that would allow three Native Americans to enter at one time was in good shape.

The canyon, at this time of year, contained water for wading and many, many petroglyphs. The hike down to the Canyon was good, but the heat made the hike back up, strenuous. When the day was over, all agreed it was a wonderful time and a good learning experience.

Our regular meetings are Held on the 3rd Monday of each month in the Udall Room of the Springerville Town Hall complex. The business meeting is at 6:30 pm and our speaker/presentation follows the conclusion of the meeting. You may contact Lynette Cross for more information at 928-551-4119 or leapday52@yahoo.com

### Phoenix Chapter

October: Our Oct. 9<sup>th</sup> speaker will be Doug Newton, Site Steward & Agua Fria Chapter Member, who will be showing us slides of the Eagletail Mountain Petroglyphs. Doug has been a site steward since 1992, and for the first 15 years of that time was assigned to monitor the archaeological sites in the Eagletail Mountains, thus acquiring knowledge of the region. Since that time he has become the regional site steward for the Tonopah region and is also the regional site steward for the Central Arizona region, mainly Pinal County. He retired in 2002 and completed a master's degree in Plant Biology at ASU with his area of research providing a flora of the Eagletail mountain region. September: Dr. Emily Early, Assoc. Curator, Mesa Grande Cultural Park (Arizona Museum of Natural History), gave a very interesting presentation on the research that she is conducting in the Tugen Hills in Kenya. She identifies mammal bones in order to identify shifts in mammalian species which correspond with periods of known global climate change in the Pliocene in order to better understand the environment in which hominids evolved.

September: We had an excellent turnout at our monthly meeting. And all who attended were treated to an interesting presentation by our guest speaker, Jane Kolber. Jane's presentation took us around the world, defining her Rock Art experiences in such places as China, India, the Middle East, Africa, South and Central America. Thank you, Jane!

Our monthly hike took us to an archaeology site known as Indian Farms, located several miles east of the small town of Gisela. The twenty to thirty room site sits just up slope from Tonto Creek. A rough trip, but a beautiful location.

October: Our monthly meeting in October will feature guest speaker Doctor Douglas B. Craig. His subject; Debating the Hohokam Collapse. A number of theories have been advanced concerning the disappearance of the Hohokam people. Doctor Craig will define and elaborate on the various possibilities.

Oct. Field Trip - Last chance! If you want to participate in the October field trip to Skull Valley, contact Activities Coordinator Ed Spicer asap. We'll be caravanning to 'Skull' to participate in an old fashioned ice cream social, taking a special tour of the railroad depot museum, and visiting a number of local southwestern arts and crafts vendors.

It's time to dig! Excavation of the Goat Camp Indian Ruin begins again this month. Volunteers are needed. If you wish to participate, contact Scott Wood, our Chapter archaeologist or Ed Spicer, Activities Coordinator. And we've been told the "I Dig Goat Camp Ruin" T-shirts will be available at the October RCC general meeting.

**San Tan Chapter**

September: The speaker for our Sept. 10<sup>th</sup> meeting was Don Ryden, architect, planner, and historical preservationist at Ryden Architects, Inc. Don gave us his view of how prehistoric and historic home construction show how to design and build comfortable and sustainable homes in the Arizona desert. He took what worked well for them and used their ideas in some of his current projects with moderate success.

October: Our speaker for Oct 8<sup>th</sup> will be our chapter advisor Gina Gage, a professional archaeologist with more than 25 years of archaeological experience in the Southwest. She is a Project Director and Historical Archaeologist for Northland Research in Tempe, where she has worked the past 11 years. Gina is also working on her Master's Degree in history (online) at the University of Nebraska, Kearney, and will graduate in December 2015. Her Master's thesis focuses on historical ranching along the Big Sandy River in Mohave County. Gina is also a proud founding member of the San Tan Chapter and she is thrilled to have the opportunity to come back and visit her home group! We look forward to big turn-out for Gina!

October: Our Oct. 23<sup>rd</sup> meeting will be held at 7 pm at the Village of Oak Creek Association Community Center. Our speaker will be Allen Dart, M.A., Registered Professional Archaeologist, co-sponsored by the Arizona Humanities Council. His topic will be *Set in Stone but Not in Meaning: Southwestern Indian Rock Art*. He has extensive experience supervising cultural resource projects at Archaic, Hohokam, Patayan, Ancestral Puebloan, Mogollon, protohistoric O'odham and historical archaeological sites. He has been employed by the Arizona State Museum, the Museum of New Mexico, the U. S. ### Yavapai Chapter

September: At the chapter's Sept. 18<sup>th</sup> meeting, chapter member Betty Higgins presented her unique view of Chaco Canyon. Betty has visited sites in the canyon, as well as outlying sites, many times, taking scores of photographs, many of them from the air. These visuals, accompanied by her expertise in several archaeological specialties—Betty holds three AAS certifications—provided the perfect overview of Chaco both for those just learning about the area and culture, and for the nearly 50 chapter and AAS members going on an extended field trip there the following week. Additionally, members received copies of an illustrated guide booklet written by Charly Gullett, another chapter member and author of two books about Chaco architecture.

October: October's meeting will feature William Litzinger, a retired Prescott College professor, who has conducted research into Mayan culture and botany. He'll talk about the little-known elevated roadbeds the Mayans used to transport people and goods around Mexico's Yucatan region and perhaps in trade with many cultures from our own Four Corners area into Central America.

## Fielder Fund: Your Chance to Endow AAS Publications

The Fielder Fund was created by the Society in 1996 to inform the public about American Southwest history, archaeology, and anthropology through the support of publications and other media. The goal is to build a fund large enough that its annual interest can pay for publication of *The Arizona Archaeologist* and other publications. The name honors the Society's first publications team, Marje and Herb Fielder.

Thanks to William Henry for his \$50 monthly donation.

**Balance: \$42,012.50**
